PREFACE

This report presents the detailed statistics on the marital status, migration, industry, occupation, fertility and household composition of population, from the 1960 Population Census of Japan. All the statistics in this report have been tabulated on the basis of ten percent samples of the questionnaire of the 1960 Population Census. Therefore, the figures in this report are subject to sampling errors that are stated in "Sampling Procedure and Reliability of Estimates". This report consists of the following four parts:

- Part 1. Marital Status and Migration
- Part 2. Industry and Occupation
- Part 3. Fertility
- Part 4. Household

The major portion of the informations compiled from the 1960 Population Census has already been published in four volumes which consist of 56 parts during the period from November 1961 to April 1964.
