

# Notes to Annual Report on the Labour Force Survey

## 【 Notes to overall tables 】

Figures for “change”, “percentage of change”, “percentage distribution” are calculated from the figures rounded to ten thousand. “\*” indicates that the percentage is not computed because the denominator is too small. Figures for “percentage distribution”, “-” indicates that the percentage is not computed because the numerator is “0” or “-”.

## 【 Notes to time series tables (table I-D-1, table I-D-2) 】

1. The figures with “\*” indicates that *Okinawa-ken*, reverted to Japan in 1972, is not included.
2. On the release of January results, the seasonal adjustments are computed retroactively by adding new data for twelve months of the previous year. The figures in this report are as of December 2023 release. For further information on X-12-ARIMA, refer to “Revision of seasonal adjustment in 2023” on Statistics Bureau of Japan website.

## 【 Notes to reference tables prefectural results (model-based estimation) (table I-E-1) 】

Figures of the latest five years are revised at the following release of the first quarter results. The figures in this report are as of the fourth quarter 2023 release.

## 【 Notes to reference tables monthly results for Southern-Kanto and Kinki (table I-E-2) 】

The precision of the monthly results for Southern-Kanto and Kinki are insufficient compared to the results of whole Japan. And all results are original series.
