Office of the Prime Minister

PREFACE

In this report are presented the results of the twenty percent sample tabulation concerned with the Japan in the Population Census taken as of October 1, 1965.

The results of the twenty percent sample tabulation have been published separately for each prefecture in a series in Volume 6 and the results for the whole Japan are published here as Volume 5. The Volume 5 consists of two parts ; the first presents the data on age, month of birth, marital status, legal nationality, households, quasi-household members and housing condition, and the second on industry and occupation, of which this report contains part 2. Besides these reports were published Volume 1 Total Population, Volume 2 One Percent Sample Tabulation Results, Volume 3 Reports for the Whole Japan (complete count) and Volume 4 Reports for Prefectures (complete count), as a series of the reports of 1965 Population Census.

Furthermore, Abridged Reports for prefectures, cities, towns and villages which contain analysis and sammary tables including comparative data with previous censuses, etc., have been published in a series. Abridged Reports for the whole Japan and Population Maps of Japan drawn on the basis of the results for minor administrative divisions will be published in the near future.

March, 1969

SHUICHI OKABE

Director, Bureau of Statistics
