YEAR BOOK OF INDICES OF INDUSTRIAL PRODUCTION

平 成 3 年 版

1 9 9 1

通商産業大臣官房調査統計部編

Research and Statistics Department

Minister's Secretariat

Ministry of International Trade and Industry

## 序

通商産業省では、従来から鉱工業生産活動に関して、鉱工業生産指数をはじめとする各種指数を作成し、毎月「生産・出荷・在庫統計速報」、「通産統計」等によって公表しておりますが、さらに毎年1回、年間補正及び季節指数の改訂を行った上で、1年間の成果をとりまとめ、「鉱工業指数年報」として編集、公表しております。

今回、平成2年の最終数値をもとに「鉱工業指数年報（平成3年版）」を公表いたします。鉱工業指数をより深く御理解いただき、各種分析等に役立てていただけるように、前年版と同様、指数の解説及び業種別、財別の図表も併せて掲載いたしました。

本年報が関係方面において従来にも増して広く利用されることを期待しますとともに、本年報の一層の充実を図るため、皆様の御教示、御叱正を賜れば幸いです。

平成3年 8 月

通商産業大臣官房調査統計部長

熊 澤 正 光

## FOREWORD

The Ministry of International Trade and Industry (MITI) has been compiling various kinds of indices on industrial production activities such as the Indices of Industrial Production, and publishing them in monthly reports such as the "Preliminary Report on Indices of Industrial Production, Shipments and Inventory" and the "Industrial statistics Monthly". The "Yearbook of the Indices of Industrial Production" is compiled and published annually after the seasonal indices are adjusted and revised.

This book is the 1991 version of the "Yearbook of the Indices of Industrial Production" containing fixed indices for 1990. In addition to these indices comments and charts (by industry and by goods) are provided from previous years with the purpose of facilitating a clearer understanding of Japan's industrial structure and providing information for analytical work.

We hope that this version will be useful to the persons concerned, and we welcome any suggestions or comments that our readers may have.

August, 1991

Masamitsu Kumazawa

|---------------|---|
| REMARKS ..... | 3 |
|---------------|---|

|                                                       |    |
|-------------------------------------------------------|----|
| Summary of the Indices of Industrial Production ..... | 14 |
|-------------------------------------------------------|----|

### 1. List of Selected Items

|                                                                                                                 |    |
|-----------------------------------------------------------------------------------------------------------------|----|
| (1) Indices of Industrial Production and Producer's Shipments .....                                             | 25 |
| (2) Indices of Producer's Inventory of Finished Goods and Producer's Inventory Ratio<br>of Finished Goods ..... | 26 |
| (3) Indices of Operating Rate and Production Capacity .....                                                     | 27 |
| (4) Indices of Raw Materials Consumption, Inventory and Inventory Ratio .....                                   | 27 |
| (5) Indices of Dealer's Inventory .....                                                                         | 27 |

### 2. Weight by Industry and by Use of Goods

|                                                                               |    |
|-------------------------------------------------------------------------------|----|
| (1) Indices of Industrial Production (Value Added Weights) .....              | 28 |
| (2) Indices of Industrial Production (Production Weights) .....               | 29 |
| (3) Indices of Producer's Shipments .....                                     | 30 |
| (4) Indices of Producer's Inventory of Finished Goods .....                   | 31 |
| (5) Indices of Producer's Inventory Ratio of Finished Goods .....             | 32 |
| (6) Weight by Use of Goods of the Said Indices .....                          | 33 |
| (7) Indices of Operating Rate and Production Capacity .....                   | 34 |
| (8) Indices of Raw Materials Consumption, Inventory and Inventory Ratio ..... | 35 |
| (9) Indices of Dealer's Inventory .....                                       | 36 |

### 3. Weight by Industry and Item

|                                                                                                                                                                                                           |    |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| (1) Indices of Industrial Production (both value added and production weights),<br>Producer's Shipments, Producer's Inventory of Finished Goods and Producer's<br>Inventory Ratio of Finished Goods ..... | 37 |
| (2) Indices of Operating Rate and Production Capacity .....                                                                                                                                               | 52 |
| (3) Indices of Raw Materials Consumption, Inventory and Inventory Ratio .....                                                                                                                             | 58 |
| (4) Indices of Dealer's Inventory .....                                                                                                                                                                   | 68 |

|                                                |    |

| 4. Chart by Industry and by Use of Goods ..... | 69 |
|------------------------------------------------|----|

## 利 用 上 の 注 意

|                                                                                      |     |
|--------------------------------------------------------------------------------------|-----|
| 5. Indices by Industry and by Use of Goods                                           | 84  |
| (1) Indices of Industrial Production (Value Added Weights)                           | 84  |
| (2) Indices of Industrial Production (Production Weights)                            | 103 |
| (3) Indices of Producer's Shipments                                                  | 122 |
| (4) Indices of Producer's Inventory of Finished Goods                                | 141 |
| (5) Indices of Producer's Inventory Ratio of Finished Goods                          | 160 |
| (6) Indices of Operating Rate                                                        | 179 |
| (7) Indices of Production Capacity                                                   | 183 |
| (8) Indices of Raw Materials Consumption                                             | 187 |
| (9) Indices of Raw Materials Inventory                                               | 194 |
| (10) Indices of Raw Materials Inventory Ratio                                        | 201 |
| (11) Indices of Dealer's Inventory                                                   | 208 |
| 6. Seasonal Indices by Industry and by Use of Goods                                  | 210 |
| (1) Indices of Industrial Production, Shipments, Inventory and Inventory Ratio       | 210 |
| (2) Indices of Operating Rate                                                        | 229 |
| (3) Indices of Raw Materials Consumption, Inventory and Inventory Ratio              | 230 |
| (4) Indices of Dealer's Inventory                                                    | 237 |
| 7. Indices of Industrial Production (value added weights) by Regional Bureau of MITI | 239 |
| (1) Weight by Industry, by Regional Bureau                                           | 239 |
| (2) Hokkaido Bureau of International Trade and Industry                              | 240 |
| (3) Tohoku Bureau of International Trade and Industry                                | 242 |
| (4) Kanto Bureau of International Trade and Industry                                 | 244 |
| (5) Chubu Bureau of International Trade and Industry                                 | 246 |
| (6) Kinki Bureau of International Trade and Industry                                 | 248 |
| (7) Chugoku Bureau of International Trade and Industry                               | 250 |
| (8) Shikoku Bureau of International Trade and Industry                               | 252 |
| (9) Kyushu Bureau of International Trade and Industry                                | 254 |
| (10) Okinawa Prefecture                                                              | 256 |

- 本書は、通商産業省作成の鉱工業関連指数について、平成2年1月～平成3年3月までの月別、昭和61年以降の四半期別、年別及び年度別の指数を集録したものである。
- 指数の種類、ウェイト算定基準、採用品目数及び公表時期は、次のとおりである。

| 指 数 の 種 類          | ウェイト算定基準      | 採用品目数 | 公 表 時 期       |
|--------------------|---------------|-------|---------------|
| ① 生産指数 (付加価値額ウェイト) | 付 加 価 値 生 産 額 | 5 2 2 | 速報<br>翌月26日頃  |
| ② 生産指数 (生産額ウェイト)   | 生 産 額         | 5 2 2 |               |
| ③ 生産者出荷指数          | 出 荷 額         | 5 2 2 |               |
| ④ 生産者製品在庫指数        | 在 庫 額         | 3 9 5 | 確報<br>翌々月14日頃 |
| ⑤ 生産者製品在庫率指数       | 在 庫 額         | 3 7 8 |               |
| ⑥ 稼働率指数            | 付 加 価 値 生 産 額 | 1 5 0 | 翌々月14日頃       |
| ⑦ 生産能力指数           | 生産能力付加価値評価額   | 1 5 0 |               |
| ⑧ 原材料消費指数          | 消 費 額         | 2 6 3 | 翌々月14日頃       |
| ⑨ 原材料在庫指数          | 在 庫 額         | 1 9 8 |               |
| ⑩ 原材料在庫率指数         | 在 庫 額         | 1 9 5 |               |
| ⑪ 販売業者在庫指数         | 在 庫 額         | * 4 2 | 翌々々月14日頃      |

\* 8項を参照のこと。

- 指数の基準時及びウェイトの時期はともに昭和60年である。  
なお、昭和60年基準指数は、年別では昭和43年、月別では昭和53年1月まで遡って計算し、「鉱工業指数総覧」により公表している。
- 指数値は、暦年別、年度別、四半期別及び月別に計算している。  
なお、四半期別のⅠ期とは1～3月期、Ⅱ期とは4～6月期、Ⅲ期とは7～9月期、Ⅳ期とは10～12月期のことである。
- 季節調整済指数とは、季節指数で原指数を割ることによって季節変動分を除去した系列のことである。季節調整は、鉱工業、製造工業、業種分類及び特殊分類別に季節指数を作成して行っている。ただし、生産能力指数については、季節調整の必要がないので行っていない。  
季節指数は、通商産業省が開発したMITI法ⅢRによって計算している。
- 平成2年以降の原指数及び季節調整済指数は、2年の年間補正後の数値である。  
なお、平成3年1～3月・Ⅰ期及び2年度の数値については、平成3年年間補正により若干変更がある。
- 通商産業局別指数は、各通商産業局の所管する地域に関して作成した鉱工業生産等指数である。

各局の所管都道府県は、次のとおりである。なお、沖縄県は、別掲とした。

北海道通商産業局 — 北海道

東北通商産業局 — 青森, 岩手, 宮城, 秋田, 山形, 福島

関東通商産業局 — 茨城, 栃木, 群馬, 埼玉, 千葉, 東京, 神奈川, 新潟, 山梨, 長野,  
静岡

中部通商産業局 — 富山, 石川, 岐阜, 愛知, 三重

近畿通商産業局 — 福井, 滋賀, 京都, 大阪, 兵庫, 奈良, 和歌山

中国通商産業局 — 鳥取, 島根, 岡山, 広島, 山口

四国通商産業局 — 徳島, 香川, 愛媛, 高知

九州通商産業局 — 福岡, 佐賀, 長崎, 大分, 熊本, 宮崎, 鹿児島

沖縄県 — 沖縄

8. 販売業者在庫指数は, 「機械器具流通統計調査」が平成2年3月分調査をもって中止したことから, 機械器具関係品目(15品目)の系列調査がなくなり, 採用品目数が57品目から42品目に変更となった。また, 参考総合は, 機械器具関係品目を除き, 昭和58年1月まで遡及して再計算している。

本年報は再生紙を使用しております。

## REMARKS

1. This book contains industrial indices compiled by MITI, for the months from January, 1990 to March, 1991 and for the quarters, calendar years, and fiscal years since 1986.
2. The next table shows the kinds of indices, the basis of weighting, the number of selected items and the dates of publication.

| Indices                                                   | The basis of weighting | The number of selected items | The dates of publication                                                                                                                                |
|-----------------------------------------------------------|------------------------|------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 Indices of Industrial Production (value added weights)  | Value added            | 522                          | The preliminary reports:<br>Approx the 26th the month after the period ends<br>The revised reports:<br>Approx the 14th two months after the period ends |
| 2 Indices of Industrial Production (production weights)   | Value of production    | 522                          |                                                                                                                                                         |
| 3 Indices of Producer's Shipments                         | Value of shipments     | 522                          |                                                                                                                                                         |
| 4 Indices of Producer's Inventory of Finished Goods       | Value of inventory     | 395                          |                                                                                                                                                         |
| 5 Indices of Producer's Inventory Ratio of Finished Goods | Value of inventory     | 378                          |                                                                                                                                                         |
| 6 Indices of Operating Rate                               | Value added            | 150                          | Approx the 14th two months after the period ends                                                                                                        |
| 7 Indices of Production Capacity                          | Estimated value added  | 150                          |                                                                                                                                                         |
| 8 Indices of Raw Materials Consumption                    | Value of consumption   | 263                          |                                                                                                                                                         |
| 9 Indices of Raw Materials Inventory                      | Value of inventory     | 198                          | Approx the 14th two months after the period ends                                                                                                        |
| 10 Indices of Raw Materials Inventory Ratio               | Value of inventory     | 195                          |                                                                                                                                                         |
| 11 Indices of Dealer's Inventory                          | Value of inventory     | * 42                         | Approx the 14th three months after the period ends                                                                                                      |

\* Riffer to Paragraph 8.

3. The year of 1985 has been selected as the base year of both indices and the weight of items. The indices based on 1985 were calculated retroactively; the annual indices were made retroactive to 1968, the monthly indices to 1978. They are all published in the series of the "Indices of Industrial Production".
4. Indices are calculated annually (by calendar year and by fiscal year), quarterly and monthly. Quarters I, II, III and IV correspond to January ~ March, April ~ June, July ~ September and October ~ December respectively.

5. Seasonally adjusted indices can be obtained by dividing non-adjusted indices by seasonal indices with the purpose of excluding the seasonal changes from indices. All industrial indices excluding the Indices of Production Capacity, which require no seasonal adjustments, are regularly adjusted on the basis of seasonal indices for each of the four categories: mining and manufacturing, manufacturing, grouping by industry, and grouping by use of goods. Seasonal indices are calculated by the MITI Formula III R developed by MITI.

6. The annual revision for 1990 refers to both non-adjusted indices and seasonally adjusted indices after 1990. For Example, when the next revision for 1991 is made, indices for the months from January to March in 1991 and for the fiscal year of 1990 will be slightly revised.

7. The indices by the regional bureaus of MITI are compiled by the bureaus themselves for their administrative districts which include the following prefectures:

|                                                     |                                                                                                      |
|-----------------------------------------------------|------------------------------------------------------------------------------------------------------|
| Hokkaido Bureau of International Trade and Industry | Hokkaido                                                                                             |
| Tohoku Bureau of International Trade and Industry   | Aomori, Iwate, Miyagi, Akita,<br>Yamagata, Fukushima                                                 |
| Kanto Bureau of International Trade and Industry    | Ibaraki, Tochigi, Gunma, Saitama,<br>Chiba, Tokyo, Kanagawa, Niigata,<br>Yamanashi, Nagano, Shizuoka |
| Chubu Bureau of International Trade and Industry    | Toyama, Ishikawa, Gifu, Aichi, Mie                                                                   |
| Kinki Bureau of International Trade and Industry    | Fukui, Shiga, Kyoto, Osaka,<br>Hyogo, Nara, Wakayama                                                 |
| Chugoku Bureau of International Trade and Industry  | Tottori, Shimane, Okayama,<br>Hiroshima, Yamaguchi                                                   |
| Shikoku Bureau of International Trade and Industry  | Tokushima, Kagawa, Ehime, Kochi                                                                      |
| Kyushu Bureau of International Trade and Industry   | Fukuoka, Saga, Nagasaki, Oita,<br>Kumamoto, Miyazaki, Kagoshima                                      |
| Okinawa Prefecture                                  | Okinawa (treated here separately<br>as one district)                                                 |

8. For the Indices of Dealers' Inventory, the number of selected items was reduced from 57 to 42, because The Machinery Distribution Statistics Survey was stopped after the survey for March, 1990 and, as a result, 15 items in the industry of machinery have not been included in the indices since then.

The total (for reference), excluding the items in the industry of machinery, has been recalculated for the period from January, 1983 to March, 1990.

Recycled paper is used for this yearbook

## 鉱工業指数について

### 1. 基準時

基準時は、昭和60年である。したがって、指数値は昭和60年の月平均を100.0とした比率で示され、ウェイトは60年の産業構造によることになる。

### 2. 分類

分類は、業種分類と、特殊分類の2方法による。ただし、販売業者在庫指数の分類は、品目群分類のみである。

#### (1) 業種分類

##### (ア) 生産・出荷・在庫及び在庫率指数

業種別分類については、利用上の便宜から日本標準産業分類の中分類に若干の組み替えを行っている。組み替えを行った主な点は、次のとおりである。

- ① 「一般機械器具製造業」、「電気機械器具製造業」、「輸送用機械器具製造業」及び「精密機械器具製造業」を統合した「機械工業」を設ける。
- ② 産業分類上の「繊維工業」及び「衣服・その他の繊維製品製造業」並びに「化学工業」に分類されている「化学繊維製造業」を統合して「繊維工業」とし、「化学工業」から「化学繊維製造業」を除く。
- ③ 「食料品製造業」と「飲料・飼料・たばこ製造業」を統合して、「食料品・たばこ工業」とする。
- ④ ウェイトの小さな「ゴム製品製造業」「なめし革・同製品・毛皮製造業」「家具・装備品製造業」「木材・木製品製造業」「その他の製造業」を統合して「その他工業」とする。
- ⑤ 「鉱業」は日本標準産業分類では大分類であるが、ウェイトが小さいので1つの業種分類とする。
- ⑥ 「出版・印刷・同関連産業」は「鉱工業」の範囲に含めないで、参考系列として取扱う。

(イ) 稼働率指数及び生産能力指数、原材料消費・在庫及び在庫率指数は生産指数の業種分類に準じており、基本的な業種分類は第1表のとおりである。

(ウ) 販売業者在庫指数の業種分類は日本標準産業分類によらず品目群で分類している。

第1表 業 種 分 類

| 昭和60年基準業種分類  | 生産・出荷・在庫及び<br>在庫率指数 | 稼働率指数及び<br>生産能力指数 | 原材料消費・在庫<br>及び在庫率指数 |
|--------------|---------------------|-------------------|---------------------|
| 鉱工業          | ○                   | ×                 | ×                   |

| 精密機械工業       | ○                   | ○                 | ×                   |
| 窯業・土石製品工業    | ○                   | ○(窯業)             | ○                   |
| 化学工業         | ○                   | ○(除.医薬品)          | ○(除.医薬品)            |
| 石油・石炭製品工業    | ○                   | ○                 | ○                   |
| プラスチック製品工業   | ○                   | ×                 | ○                   |
| パルプ・紙・紙加工品工業 | ○                   | ○                 | ○                   |
| 繊維工業         | ○                   | ○                 | ○                   |
| 食料品・たばこ工業    | ○                   | ×                 | ×                   |
| その他工業        | ○                   | ×                 | ○                   |
| ゴム製品工業       | ○                   | ○                 | ○                   |
| 皮革製品工業       | ○                   | ×                 | ○                   |
| 家具工業         | ○                   | ×                 | ×                   |
| 木材・木製品工業     | ○                   | ×                 | ○                   |
| その他製品工業      | ○                   | ×                 | ×                   |
| 鉱業           | ○                   | ×                 | ×                   |
| (参考)         |                     |                   |                     |
| 公益事業         | ○                   | ×                 | ×                   |
| 産業総合         | ○                   | ×                 | ×                   |
| 出版・印刷業       | ○                   | ×                 | ×                   |

## (2) 特殊分類

## (ア) 生産・出荷・在庫及び在庫率指数

生産指数、生産者出荷指数、生産者製品在庫指数及び生産者製品在庫率指数の特殊分類は第2表のとおりである。

特殊分類は、まず、生産活動に再投入されるものを生産財とし、最終需要に向けられる

ものを最終需要財とする。最終需要財を資本形成に向けられる投資財と家計で消費される消費財に分類する。さらに、投資財を設備投資に向けられる資本財と建設関連の建設財に、消費財を耐久消費財と非耐久消費財に、生産財を鉱工業の生産活動に再投入される鉱工業用生産財と他産業の生産活動に投入されるその他用生産財（企業消費財を含む。）に分類する。

なお、輸向向けの財は特に国内向と区分せず、財の本来的用途に応じてそれぞれの分類に含めている。

基本的な特殊分類は次のとおりである。

第2表 財別格付けの定義

| 分 類             | 定 義                                             |
|-----------------|-------------------------------------------------|
| 最 終 需 要 財       | 鉱工業又は他の産業に原材料等として投入されない最終製品、ただし、建設財を含み、企業消費財を除く |
| 投 資 財           | 資本財と建設財の合計                                      |
| 資 本 財           | 家計以外で購入される製品で、原則として想定耐用年数が1年以上で比較的購入単価の高いもの     |
| (製 造 設 備 用)     | 鉱工業製品の製造を目的とする機械、設備及びその付属品                      |
| (電 力 用)         | 電力用の機械、設備及びその付属品                                |
| (通 信 ・ 放 送 用)   | 通信・放送用の機械、設備及びその付属品                             |
| (農 業 用)         | 農業生産用の機械及びその付属品                                 |
| (建 設 用)         | 土木工事・建築工事用の機械及び付属品                              |
| (輸 送 用)         | 輸送機械及びその付属品                                     |
| (事 務 用)         | 事務用機械及び事務所の備品等                                  |
| (そ の 他 の 資 本 財) | 他に分類されない資本財                                     |
| 建 設 財           | 建築用・土木用の合計                                      |
| (建 築 用)         | 建築工事用の資材及び衛生用陶器の建築物に付随する内装品                     |
| (土 木 用)         | 土木工事用の資材                                        |
| 消 費 財           | 家計で購入される製品（耐久消費財と非耐久消費財の合計）                     |
| 耐 久 消 費 財       | 原則として想定耐用年数1年以上で、比較的購入単価が高いもの                   |
| (家 事 用)         | 家事に使用されるもの（冷暖房機器を含む）                            |

| 分 類             | 定 義                                          |
|-----------------|----------------------------------------------|
| (教 養 ・ 娯 楽 用)   | 教養・娯楽に関するもの                                  |
| (乗 用 車 ・ 二 輪 車) | 自転車，自動車用品を含む                                 |
| (その他の耐久消費財)     | 他に分類されない耐久消費財                                |
| 非 耐 久 消 費 財     | 原則として想定耐用年数1年未満又は，比較的購入単価が安いもの               |
| (被 服 及 び 履 き 物) | 外衣，下着，靴等                                     |
| (食 料 品)         | 主食，副食物，調味料，飲料，菓子等                            |
| (その他の非耐久消費財)    | 他に分類されない非耐久消費財                               |
| 生 産 財           | 鉱工業及び他の産業に原材料等として投入される製品，ただし，企業消費財を含み，建設財を除く |
| 鉱 工 業 用 生 産 財   | 鉱工業の生産工程に原材料，燃料，部品，容器，消耗品，工具等として再投入される製品     |
| そ の 他 用 生 産 財   | 非鉱工業用の原材料，燃料，容器，消耗品及び企業消費財                   |

(イ) 原材料消費・在庫及び在庫率指数

原材料を源泉別に素原材料，製品原材料別に，さらに輸入，国産別に格付けをしている。

なお，電力，重油は別掲してある。

素原材料 …… 製造工業外から製造工業に投入される原材料（電力を除く。）

製品原材料 …… 製造工業内で生産され，他の製造工業の生産工程に再投入される原材料（重油を除く。）

3. 採 用 品 目

採用品目のうち，通商産業省所管品目の月々の数量は主として，生産動態統計調査，需給統計調査，流通統計調査等の結果を利用している。

なお，通商産業省所管外採用品目は他省庁及び業界団体の資料によっている。

(1) 生産・出荷・在庫及び在庫率指数

生産及び生産者出荷指数品目は522品目（昭和60年基準で参考系列として新たに採用した「出版・印刷業」の4品目を除く。），生産者製品在庫指数品目は395品目，また，生産者製品在庫率指数は378品目である。

なお，採用品目のうち，通商産業省が調査対象にしている品目（生産・出荷指数品目522品目のうち481品目）は主として通商産業省生産動態統計調査から月々の実績を求めている。

また，通商産業省が調査対象にしていない品目の資料出所は次のとおりである。

|           |       |       |
|-----------|-------|-------|
| 鉄道車両・鋼船   | (2品目) | 運 輸 省 |
| 医 薬 品     | (1品目) | 厚 生 省 |
| 生 糸       | (1品目) | 農林水産省 |
| 製 材 ・ 合 板 | (3品目) | 農林水産省 |

|             |        |               |
|-------------|--------|---------------|
| 食料品（酒類を除く。） | (28品目) | 農林水産省及び各業界団体等 |
| 酒 類         | (5品目)  | 各酒類組合         |
| た ば こ       | (1品目)  | 日本たばこ産業株式会社   |

また，製造期間が数か月以上にわたる大型の長期生産物は工事に着手してから完成までの作業の進捗量を生産の系列としている。その品目は次のとおりである。

|                     |            |
|---------------------|------------|
| 橋 り ょ う             | (2000t以上)  |
| 水 管 ボ イ ラ           | (800t/h以上) |
| 一 般 用 蒸 気 タ ー ビ ン   | (25万KW以上)  |
| 圧 延 機 械             | (1000t以上)  |
| 一 般 用 タ ー ビ ン 発 電 機 | (25万KVA以上) |
| 非 標 準 変 圧 器         | (50万KVA以上) |
| 鋼 船                 |            |

(2) 稼働率指数及び生産能力指数

採用品目数は，150品目であり，生産動態統計調査において，生産能力，又は設備の調査を行っている品目の中から選定されている。

なお，通商産業省所管外の採用品目の資料出所は次のとおりである。

生 糸 …… 農林水産省

(3) 原材料消費・在庫及び在庫率指数

採用品目数は，消費指数が263品目，在庫指数は198品目，在庫率指数は195品目であり，主として生産動態統計調査で原材料として調査されている品目から選定されている。

なお，通商産業省所管外の採用品目の資料出所は次のとおりである。

|                   |         |
|-------------------|---------|
| 鋼船用普通鋼鋼材及び電力      | … 運輸省   |
| まゆ，製材用素材及び単板製造用素材 | … 農林水産省 |

(4) 販売業者在庫指数

採用品目数は，42品目であり，主として需給統計調査，流通統計調査で調査されている品目から選定されている。

なお，通商産業省所管外の採用品目の資料出所は次のとおりである。

生 糸 …… 農林水産省

4. 算 式

算式は基準年次の固定ウェイトで加重平均するラスパイレス算式である。

|          |    |                        |
|----------|----|------------------------|
| Q，R：総合指数 | 添字 | o：基準時                  |
| q：数量     |    | t：比較時                  |
| w：ウェイト   |    | i：採用品目（i = 1, 2, …… n） |
| r：率      |    |                        |

- (1) 生産・出荷・在庫指数，生産能力指数，原材料消費・在庫指数及び販売業者在庫指数

$$Q_t = \frac{\sum_{i=1}^n \frac{q_{ti}}{q_{oi}} w_{oi}}{\sum_{i=1}^n w_{oi}} \times 100.0$$

- (2) 生産者製品在庫率，稼働率及び原材料在庫率指数

$$R_t = \frac{\sum_{i=1}^n \frac{r_{ti}}{r_{oi}} w_{oi}}{\sum_{i=1}^n w_{oi}} \times 100.0$$

$$\text{ただし，生産者製品在庫率} = \frac{\text{在庫数量}}{\text{出荷数量}}$$

$$\text{稼働率} = \frac{\text{生産能力生産量}}{\text{生産能力量}}$$

$$\text{原材料在庫率} = \frac{\text{在庫数量}}{\text{消費数量}}$$

注 生産者製品在庫率指数の算出に当たって，出荷数量に大きな季節変動がある品目及び自己消費の割合が多い品目等については，出荷数量を分母にすることが不適当であるため，その品目については，分母を生産数量に置き換えるか，もしくは，非採用品目とした。

## 5. ウェイト

鉱工業関連指数のウェイト算定基準は次のとおりである。

ウェイト算出の基礎資料は「昭和60年工業統計調査」を中心として，このほか「本邦鉱業のすう勢調査」「生産動態統計調査」や「貿易統計」などによる。

- (1) 生産・出荷・在庫及び在庫率指数

付加価値額ウェイトは，工業統計調査による産業別付加価値額を基礎にし，採用品目のうち一定割合以上が他業種において生産されている場合は，当該品目の業種別生産構成比によって調整を行っている。生産額ウェイト，出荷額ウェイト及び在庫額ウェイトは，工業統計調査による品目別生産額，出荷額及び在庫額を基礎にしている。

ウェイトの算定は，まず，各業種別のウェイトを算出し，次に各業種の財別構成比によっ

て各業種ごとの特殊分類ウェイトを算出している。

非採用品目のウェイトは原則として各業種及び財ごとに採用品目にふくらましを行っている。

なお，各要素の中で採用品目のない，または，極端に代表率の低いものについて，業種全体または財全体にふくらましを行った箇所もある。

- (2) 稼働率指数及び生産能力指数

ウェイト基準額は，生産指数（付加価値額ウェイト）の基準額を基礎にしている。

- (3) 原材料消費・在庫及び在庫指数

ウェイト基準額は，原材料消費額については工業統計表の原材料等使用額（委託生産費を除く。）を基礎にし，素原材料，製品原材料の構成比は貿易統計，本邦鉱業のすう勢等により推計している。在庫額については，消費額と採用品目の年平均在庫率で推計している。

- (4) 販売業者在庫指数

ウェイト基準額は，販売業者在庫額であり，ふくらましを行っていない。

## 6. 季節調整

季節調整の方法は，MITI法ⅢRを採用した。

MITI 法Ⅲ R のブロックチャート（分析計算の部分を除く）

$$I^* : \text{不規則要素の平均振幅} \quad I^* = \frac{1}{60} \sum_{t=3}^{62} |I_t - 1.0|$$

$$S^* : \text{季節要素の平均振幅} \quad S^* = \frac{1}{60} \sum_{t=3}^{62} |S_t - 1.0|$$

## 7. 接続指数

(1) 接続指数とは、旧基準指数にリンク係数を乗じて、便宜的に昭和60年基準指数に接続したものである。

(2) 旧基準指数の使用期間及びリンク係数算出の方法は次の通りである。

| 旧基準指数   | 計算期間    | リンク係数 (ℓ) 算出方法                                                                                     |
|---------|---------|----------------------------------------------------------------------------------------------------|
| 55年基準指数 | 57年～53年 | $\ell_{55} = \frac{\text{60年基準指数の58年1月から3月の平均指数}}{\text{55年基準指数の58年1月から3月の平均指数}}$                  |
| 50年基準指数 | 52年～48年 | $\ell_{50} = \ell_{55} \times \frac{\text{55年基準指数の53年1月から3月の平均指数}}{\text{50年基準指数の53年1月から3月の平均指数}}$ |
| 45年基準指数 | 47年～43年 | $\ell_{45} = \ell_{50} \times \frac{\text{50年基準指数の48年1月から3月の平均指数}}{\text{45年基準指数の48年1月から3月の平均指数}}$ |
| 40年基準指数 | 42年～38年 | $\ell_{40} = \ell_{45} \times \frac{\text{45年基準指数の43年1月指数}}{\text{40年基準指数の43年1月指数}}$               |
| 35年基準指数 | 37年～33年 | $\ell_{35} = \ell_{40} \times \frac{\text{40年基準指数の38年1月指数}}{\text{35年基準指数の38年1月指数}}$               |
| 30年基準指数 | 32年～28年 | $\ell_{30} = \ell_{35} \times \frac{\text{35年基準指数の33年1月指数}}{\text{30年基準指数の33年1月指数}}$               |

なお、リンク係数に使用する各月の数値は季節調整済の数値である。

(3) 接続計算は、鉱工業、製造工業、業種分類及び特殊分類別に、原指数、季節調整済指数とも行った。

(4) 旧基準指数と現行60年基準指数とは分類が若干異っているが、接続計算は、現行指数に見合う旧指数の分類について行った。その結果、特に小分類の中に、接続指数の欠けているものがある。

## (5) 季節調整方法

各基準年指数の季節調整の方法は次のとおりである。

| 旧基準指数   | 計算期間    | 季節調整方法  |
|---------|---------|---------|
| 55年基準指数 | 57年～53年 | MITI 法Ⅲ |
| 50年基準指数 | 52年～48年 | MITI 法Ⅲ |
| 45年基準指数 | 47年～43年 | MITI 法Ⅱ |
| 40年基準指数 | 42年～38年 | MITI 法Ⅱ |
| 35年基準指数 | 37年～33年 | MITI 法Ⅱ |
| 30年基準指数 | 32年～28年 | MITI 法Ⅱ |

注：昭和35年基準指数と昭和30年基準指数の季節調整方法をMITI 法Ⅱに改め昭和40年基準指数作成時に遡って計算し直した。

## (6) 公表方法

各基準年における「鉱工業指数総覧」により公表している。

## SUMMARY OF THE INDICES OF INDUSTRIAL PRODUCTION

### 1. Base Year

The base year of the indices in this book is 1985. All indices are represented as the ratios to the monthly average of 1985 (= 100.0) and the composition ratios of weights are based on the industrial structure of 1985.

### 2. Classification

There are 2 kinds of indices: indices classified by industry and indices classified by use of goods. However the Indices of Dealer's Inventory, are only classified by grouping of items.

#### (1) Indices Classified by Industry

##### (a) Indices of Industrial Production, Shipments, Inventory and the Inventory Ratio

Some of the classifications of the Standard Industrial Classification for Japan (JSIC), on which the classification by industry in this book is based, is rearranged for the user's convenience.

1 The Industry of Machinery and Equipment includes the Manufacture of General Machinery, Manufacture of Electrical Machinery Equipment and Supplies, Manufacture of Transportation Equipment and Manufacture of Precision Instruments and Machinery.

2 Manufacture of Textile Mill Products, Manufacture of Apparel and Other Finished Products made from fabrics and similar materials and Manufacture of Chemical Fibres within Manufacture of Chemical and Allied Products make up the Industry of Textiles. As a result, Manufacture of Chemical Fibres is excluded from Manufacture of Chemical and Allied Products.

3 Food Manufacturing and Manufacture of Beverage, Feed and Tobacco are combined under the title of the Industry of Food and Tobacco.

4 A new industry "Miscellaneous Manufacturing" has been established by combining small weighted groups including Manufacture of Rubber Products, Leather Tanning and Manufacture of Leather Products and Fur Skins, Manufacture of Furniture and Fixtures, Manufacture of Lumber and Wood Products, and Miscellaneous Manufacturing Industries.

5 Mining, which is one of the divisions in JSIC, is classified here as one industry because of its small weight.

6 The industry of Publishing, Printing and Allied Industries is excluded from Mining and Manufacturing, and is treated as a separate industry for reference.

##### (b) Indices of Operating Rate and Production Capacity and Indices of Raw Materials Consumption, Inventory and the Inventory Ratio

The above-mentioned industrial classifications are also applied to those indices. Table 1

shows the principal classification of industries for all industrial indices except for Dealer's Inventory.

Table 1 Classification by Industry

| Industries                                    | Indices of Industrial Production, Shipments, Inventory and the Inventory Ratio | Indices of Operating Rate and Production Capacity | Indices of Raw Materials Consumption, Inventory and the Inventory Ratio |
|-----------------------------------------------|--------------------------------------------------------------------------------|---------------------------------------------------|-------------------------------------------------------------------------|
| Mining and Manufacturing                      | ○ (Included)                                                                   | × (Excluded)                                      | ×                                                                       |
| Manufacturing                                 | ○                                                                              | ○                                                 | ○                                                                       |
| Iron and Steel                                | ○                                                                              | ○                                                 | ○                                                                       |
| Non-ferrous Metals                            | ○                                                                              | ○                                                 | ○                                                                       |
| Fabricated Metals                             | ○                                                                              | ○                                                 | ○                                                                       |
| Machinery and Equipment                       | ○                                                                              | ○ (Excluding Ships & Rolling Stocks)              | ○                                                                       |
| Industrial Machinery                          | ○                                                                              | ○                                                 | ○                                                                       |
| Electrical Machinery                          | ○                                                                              | ○                                                 | ○                                                                       |
| Transportation Equipment                      | ○                                                                              | ○ (Excluding Ships & Rolling Stocks)              | ○                                                                       |
| Precision Instruments                         | ○                                                                              | ○                                                 | ×                                                                       |
| Ceramics, Stone and Clay Products             | ○                                                                              | ○ (Ceramics only)                                 | ○                                                                       |
| Chemicals                                     | ○                                                                              | ○ (Excluding Medicine and Drugs)                  | ○ (Excluding Medicine and Drugs)                                        |
| Petroleum and Coal Products                   | ○                                                                              | ○                                                 | ○                                                                       |
| Plastic Products                              | ○                                                                              | ×                                                 | ○                                                                       |
| Pulp, Paper and Paper Products                | ○                                                                              | ○                                                 | ○                                                                       |
| Textiles                                      | ○                                                                              | ○                                                 | ○                                                                       |
| Food and Tobacco                              | ○                                                                              | ×                                                 | ×                                                                       |

| All Industries (FOR REFERENCE)                | ○                                                                              | ×                                                 | ×                                                                       |
| Publishing and Printing Industries (FOR REF.) | ○                                                                              | ×                                                 | ×                                                                       |

(c) The Indices of Dealer's Inventory are compiled under the classification by grouping of items, not under the classification based on the Standard Industrial Classification for Japan.

(2) Indices by Use of Goods

(a) Indices of Industrial Production, Shipments, Inventory and the Inventory Ratio

See the Table 2 for the kinds of classification for those indices.

Table 2 Definitions of Goods

| Goods                                  | Definitions                                                                                                                                                                                                         |
|----------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Final Demand Goods                     | Final goods which are not input as materials, into mining and manufacturing and other industries, including construction materials, but excluding enterprise consumption goods                                      |
| Investment Goods                       | Capital goods and construction goods                                                                                                                                                                                |
| Capital Goods                          | Products which are purchased by the sectors except for households, provided that, in principle, they have one or more year(s) of an assumed durable term and they were purchased at a comparatively high unit price |
| (for production equipment)             | Machinery, equipment and attachments to them for the production of mining and manufacturing products                                                                                                                |
| (for electricity)                      | Machinery, equipment and attachments to them for the generation of electricity                                                                                                                                      |
| (for communication and broadcasting)   | Machinery, equipment and attachments to them for communication and broadcasting                                                                                                                                     |
| (for agriculture)                      | Machinery and attachments to them for agricultural production                                                                                                                                                       |
| (for construction)                     | Machinery and attachments to them for civil engineering and construction works                                                                                                                                      |
| (for transportation)                   | Transportation Equipment and attachments to them                                                                                                                                                                    |
| (for office work)                      | Office equipment and fixtures for the office                                                                                                                                                                        |
| (Miscellaneous Capital Goods)          | Capital goods which are not classified elsewhere                                                                                                                                                                    |
| Construction Goods                     | Goods for construction and civil engineering                                                                                                                                                                        |
| (for construction)                     | Building materials and fixtures such as sanitary equipment of ceramic wares                                                                                                                                         |
| (for engineering)                      | Materials for civil engineering projects                                                                                                                                                                            |
| Consumer Goods                         | Products for households (durable and non-durable consumer goods)                                                                                                                                                    |
| Durable Consumer Goods                 | Consumer Goods which are purchased by households provided that, in principle, they have one or more year(s) of assumed durability and they were purchased at a comparatively high unit price                        |
| (for household affairs)                | Articles for household affairs (including air-conditioning equipment)                                                                                                                                               |
| (for education and amusement)          | Articles for education and amusement                                                                                                                                                                                |
| (Passenger cars and motorcycles)       | Including bicycles and accessories for motor vehicles                                                                                                                                                               |
| (Miscellaneous Durable Consumer Goods) | Durable consumer goods which are not classified elsewhere                                                                                                                                                           |

| Goods                                       | Definitions                                                                                                                                                        |
|---------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Non-durable Consumer Goods                  | Consumer goods which, in principle, are assumed to have a durable term less than a year or are purchased at comparatively low unit price                           |
| (Clothing and Footware)                     | Clothes, underwear, shoes, etc.                                                                                                                                    |
| (Food)                                      | Staple food, other foods, seasonings, beverages, confectioneries, etc.                                                                                             |
| (Miscellaneous Non-durable Consumer Goods)  | Non-durable consumer goods which are not classified elsewhere                                                                                                      |
| Producer Goods                              | Products which are input into mining and manufacturing and other industries as materials, including enterprise consumption goods, but excluding construction goods |
| Producer Goods for Mining and Manufacturing | Products which are re-input into Mining and Manufacturing in the process of production as raw materials, fuels, parts, containers, expendables, tools, etc.        |
| Producer Goods for Other Uses               | Raw materials, fuels, containers, expendables and enterprise consumption goods for industries excluded from mining and manufacturing                               |

In compiling indices by use of goods, goods to be re-input into production are classified as Producer Goods, and goods for final demand are defined as Final Demand Goods. The latter is divided into Investment Goods for capital formation and Consumption Goods for consumption by households. Furthermore, Investment Goods are divided into Capital Goods for equipment investment and Construction Goods for construction activities, and Consumer Goods are divided into Durable Consumer Goods and Non-durable Consumer Goods. Producer Goods are also divided into 2 groups: Producer Goods for Mining and Manufacturing which are re-input into production activities in mining and manufacturing, and Producer Goods for Other Uses, which are input into industries excluded from mining and manufacturing in the process of production, including enterprise consumption Goods.

Goods for export are not distinguished from goods for the domestic market in this classification. They are classified according to their original uses.

The classification is tabulated below.

(b) Indices of Raw Materials Consumption, Inventory and the Inventory Ratio

Raw materials are divided into raw materials and processed materials according to their sources, and each of them is divided into materials for the export and for the domestic market. Electricity and heavy fuel oil are not included in this method of classification, and are shown independently on the tables.

Raw materials . . . . . Materials which are input from non-manufacturing industries  
into manufacturing (excluding electricity)

Processed materials . . . Materials which are produced in manufacturing and re-input into manufacturing industries in the process of production (excluding heavy fuel oil)

### 3. Selected Items

Monthly indices are compiled on the basis of the quantity of production, shipments and inventory for selected items, from the results of the Current Survey of Production, the Current Survey of Supply and Demand and the Survey of Distribution by MITI. In regard to selected items not under the control of MITI, data from other ministries and the corporations concerned are used.

(1) Indices of Industrial Production, Shipments, Inventory and the Inventory Ratio

522 items were selected for compiling the Indices of Industrial Production and Shipments (excluding new 4 items included into the industry of Publishing and Printing; items for reference in the 1985-based indices). For the Indices of Inventory and the Inventory Ratio, the number of selected items is 395 and 378 respectively.

The results of the Current Survey of Production conducted by MITI every month are utilized for the 481 selected items out of 522 for the Indices of Industrial Production and Shipments. The rest of the selected items surveyed by other ministries and corporations are as follows:

Rolling stocks and steel ships (2 items) . . .The Ministry of Transportation

Medical Supplies (1 item) . . . . .The Ministry of Health and Welfare

Raw silk (1 item) . . . . . The Ministry of Agriculture, Forestry and Fisheries

Lumber and plywood (3 items) . . . . . The Ministry of Agriculture, Forestry and Fisheries

Food (excl. liquor) (28 items) . . . . . The Ministry of Agriculture, Forestry and Fisheries, and the corporations concerned

Liquor (5 items) . . . . .Liquor associations

Tabacco (1 item) . . . . . Japan Tobacco Inc.

In case of substantial products which require more than several months to complete, the amount of work in progress in a month is regarded as the quantity of production for each month. Those 7 big and long-term products are as follows:

Bridges (Over 2,000 t.)

Water tube boilers (Over 800 t./h.)

General steam turbines (Over 250,000 kW)

Rolling mill machines (Over 1,000 t.)

General turbine generators (Over 250,000 kVA)

Non-standard transformers (Over 500,000 kVA)

### Steel ships

## (2) Indices of Operating Rate and Production Capacity

150 items are selected for those indices, and 149 of them are surveyed by the Current Survey of Production on production capacity or equipment. The other item is surveyed by another ministry.

Raw silk . . . . .The Ministry of Agriculture, Forestry and Fisheries

### (3) Indices of Raw Materials Consumption, Inventory and the Inventory Ratio

The number of selected items for the Indices of Raw Materials Consumption is 263, and for the Indices of Raw Materials Inventory and the Inventory Ratio, 198 and 195 respectively. Those items are mainly selected out of items surveyed by the Current Survey of Production. But 2 items are surveyed by other ministries:

Ordinary steel and electricity for ships . . . .The Ministry of Transportation

|                                    |               |                                                     |
|------------------------------------|---------------|-----------------------------------------------------|
| Cocoon, basic materials for lumber | } . . . . . { | The Ministry of Agriculture, Forestry and Fisheries |
| and that for venner castings       |               |                                                     |

#### (4) Indices of Dealer's Inventory

There are 42 selected items for these indices, and most of them are selected out of a great number of items under the Current Survey of Supply and Demand and the Survey of Distribution. The following item is surveyed by another ministry:

Raw silk . . . . . The Ministry of Agriculture, Forestry and Fisheries

#### 4. Formula

The Laspeyres' Formula is adopted here. In this formula, indices are calculated by a fixed weighted average on the basis of figures in the base year. It is necessary to know the meaning of the following characters to understand this formula:

Q, R : Integrated index                      o : Base time

$q$ : Quantity                       $t$ : Compared time

$w$ : Weight                      ,  $i$ : Selected item ( $i = 1, 2, \dots, n$ )

$r$  : Ratio

(1) Indices of Industrial Production, Shipments, Inventory, Production Capacity, Raw Materials Consumption, Raw Materials Inventory and Dealer's Inventory

$$Q_t = \frac{\sum_{i=1}^n \frac{q_{ti}}{q_{oi}} w_{oi}}{\sum_{i=1}^n w_{oi}} \times 100.0$$

(2) Indices of Producer's Inventory Ratio, Operating Rate and Raw Materials Inventory Ratio

$$R_t = \frac{\sum_{i=1}^n \frac{r_{ti}}{r_{oi}} w_{oi}}{\sum_{i=1}^n w_{oi}} \times 100.0$$

The ratios and rate of those indices are as follows:

$$\text{Producer's Inventory Ratio} = \frac{\text{Inventory quantity}}{\text{Shipments quantity}}$$

$$\text{Operating Rate} = \frac{\text{Quantity of production in the production capacity}}{\text{Quantity of production capacity}}$$

$$\text{Raw Materials Inventory Ratio} = \frac{\text{Inventory quantity}}{\text{Consumption quantity}}$$

Note: In compiling the Indices of Producer's Inventory Ratio, attention was paid to the items that show large seasonal fluctuations in shipments quantity or very high rate of self-consumption by producers. For those kinds of items, "shipment quantity" is unsuitable as the dominator in the above-mentioned formula, so, it is replaced by "production quantity," or those items were not selected for the indices.

## 5. Weights

The results of the "Census of Manufactures (1985)" and other basic data including "The Survey on Mining in Japan", "The Current Survey of Production" and "The Statistics on International Trade" are used for calculation of weights.

(1) Indices of Industrial Production, Shipments, Inventory and the Inventory Ratio

Value added weights are calculated on the basis of the value added by industry which was fixed by the survey of the Census of Manufacturers. If a selected item that is involved in an industry is also produced in another industry at a certain rate, the weight of the item would be divided according to the production ratio in each industry. Production weights, shipments weights and inventory weights are calculated on the basis of production value, shipments value and inventory value surveyed by the Census of Manufacturers.

Weights are calculated by industry at first, and then by use of goods in every industry in proportion to composition ratios in the industry.

Weights of non-selected items are, in principle, added to those of all selected items within an industry or goods that include the non-selected items. In the case where an industry has no selected items or only has exceedingly low-weighted selected items, weights of those items are added to the whole industry or goods.

(2) Indices of Operating Rate and Production Capacity

The base value of weights for those indices are based on the value for the Indices of Industrial Production (value added weights).

(3) Indices of Raw Materials Consumption, Inventory and the Inventory Ratio

Weights of raw materials consumption are based on the value of raw materials consumption (excluding the cost of consigned production) which is surveyed by the Census of Manufactures. The composition ratios of both raw materials and processed materials are estimated on the basis of "The Statistics on Japanese Trade" and "The Survey on Mining in Japan". The value of raw materials inventory is calculated on the basis of the value of raw materials consumption and the annually averaged inventory ratio of selected items.

(4) Indices of Dealer's Inventory

The base value of weights is the inventory value of the dealers. Weights of non-selected items are not added here to weights of selected items.

## 6. Seasonal Adjustments

The indices are adjusted seasonally for every month through the MITI Formula III R. It's block chart is as follows;

Block Chart of the MITI Formula III R (excluding the part of analysis calculation)

## 7. Connected Indices

(1) Those indices mean 1985-based indices for the periods when indices were compiled on pre-1985 basis and are calculated by multiplying the old indices for the periods by linking coefficients.

(2) The old indices, terms and the method of calculation of linking coefficients are as follows:

| Old indices        | Terms     | Formulas of linking coefficients ( $\ell$ )                                                                                                                  |
|--------------------|-----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1980-based indices | 1982~1978 | $\ell_{80} = \frac{\text{1985-based averaged indices for January~March, 1983}}{\text{1980-based averaged indices for January~March, 1983}}$                  |
| 1975-based indices | 1977~1973 | $\ell_{75} = \ell_{80} \times \frac{\text{1980-based averaged indices for January~March, 1978}}{\text{1975-based averaged indices for January~March, 1978}}$ |
| 1970-based indices | 1972~1968 | $\ell_{70} = \ell_{75} \times \frac{\text{1975-based averaged indices for January~March, 1973}}{\text{1970-based averaged indices for January~March, 1973}}$ |
| 1965-based indices | 1967~1963 | $\ell_{65} = \ell_{70} \times \frac{\text{1970-based indices for January, 1968}}{\text{1965-based indices for January, 1968}}$                               |
| 1960-based indices | 1962~1958 | $\ell_{60} = \ell_{65} \times \frac{\text{1965-based indices for January, 1963}}{\text{1960-based indices for January, 1963}}$                               |
| 1955-based indices | 1957~1953 | $\ell_{55} = \ell_{60} \times \frac{\text{1960-based indices for January, 1958}}{\text{1955-based indices for January, 1958}}$                               |

Note: The seasonally adjusted indices are used in those formulas.

(3) The old and new indices are connect four categories: Mining and manufacturing, manufacturing, and grouping by industry and grouping by use of goods in both non-adjusted and seasonally adjusted indices.

(4) The classification of industries for 1985-based indices are a bit different from the old indices, and the connection is not perfect. When certain old indices do not have a relevant industry in the new indices, connection was impracticable. As a result, some industries, especially the minor grouping of industries, in the new indices lack connected indices.

## (5) The Method of Seasonal Adjustment

Each of the old indices employs the following methods of seasonal adjustment.

| Indices            | Terms       | Method of seasonal adjustment |
|--------------------|-------------|-------------------------------|
| 1980-based indices | 1982 ~ 1978 | MITI Formula III              |
| 1975-based indices | 1977 ~ 1973 | MITI Formula III              |
| 1970-based indices | 1972 ~ 1968 | MITI Formula II               |
| 1965-based indices | 1967 ~ 1963 | MITI Formula II               |
| 1960-based indices | 1962 ~ 1958 | MITI Formula II               |
| 1955-based indices | 1957 ~ 1953 | MITI Formula II               |

Note: The last 2 indices were re-calculated retroactive to when the 1965-based indices were compiled, after the old method of seasonal adjustment was replaced by the MITI Formula II.

## (6) Publication

The connected indices have been published in the book "Indices of Industrial Production" after the change of the base year.

(注) 1品目を2財に分割する品目があるので、採用品目数の合計とは一致しない。

・生産者製品在庫率指数で除かれる品目

鉄鋼業：鉄鉄、粗鋼

金属製品工業：石油ストーブ、石油温風暖房機

一般機械工業：動力耕うん機、田植機、コンバイン、農業用乾燥機

電気機械工業：ウィンド形エアコンディショナ、セパレート形エアコンディショナ、扇風機、液晶テレビジョン受信機

輸送機械工業：KDセット（乗用車）、KDセット（トラック）、KDセット（二輪自動車）

パルプ・紙・紙加工品工業：製紙パルプ

その他製品工業：電子応用玩具

## (3) 稼働率指数・生産能力指数

| 分類           | 採用品目数 |
|--------------|-------|
| 製造工業         | 150   |
| 鉄鋼業          | 5     |
| 非鉄金属工業       | 10    |
| 金属製品工業       | 4     |
| 機械工業         | 52    |
| 一般機械工業       | 14    |
| 電気機械工業       | 27    |
| 輸送機械工業       | 7     |
| 精密機械工業       | 4     |
| 窯業           | 5     |
| 化学工業         | 54    |
| 石油・石炭製品工業    | 2     |
| パルプ・紙・紙加工品工業 | 4     |
| 繊維工業         | 13    |
| ゴム製品工業       | 1     |

## (4) 原材料消費指数・在庫指数・在庫率指数

| 分類           | 採用品目数    |
|--------------|----------|
| 製造工業         | 263(198) |
| 鉄鋼業          | 16(14)   |
| 非鉄金属工業       | 17(15)   |
| 金属製品工業       | 4(4)     |
| 機械工業         | 63(25)   |
| 一般機械工業       | 23(11)   |
| 電気機械工業       | 20(7)    |
| 輸送機械工業       | 20(7)    |
| 窯業・土石製品工業    | 27(26)   |
| 化学工業         | 51(43)   |
| 石油・石炭製品工業    | 10(6)    |
| プラスチック製品工業   | 9(9)     |
| パルプ・紙・紙加工品工業 | 13(11)   |
| 繊維工業         | 39(32)   |
| その他工業        | 14(13)   |

(注) ( ) 内は在庫及び在庫率指数の採用品目数である。ただし、在庫率指数採用品目は化学工業が40品目であるため、合計は195品目である。

## (5) 販売業者在庫指数

| 分類      | 採用品目数 |
|---------|-------|
| 鋼材      | 1     |
| 非鉄金属    | 12    |
| 石油製品    | 7     |
| 紙       | 4     |
| 繊維品     | 17    |
| 石炭      | 1     |
| (参考) 総合 | 42    |

2. 業種別及び特殊分類別ウェイト

(1) 生産指数（付加価値額ウェイト）

|                      | 合 計      | 最 終<br>需要財 | 投資財     | 資本財     | 建設財   | 消費財     | 耐 久<br>消費財 | 非耐久<br>消費財 | 生産財     | 鉱工業用<br>生産財 | その他用<br>生産財 |

## ☆財別分類の略称

|        |                |
|--------|----------------|
| 資本財    |                |
| 資・製    | 製造設備用          |
| 資・電    | 電力用            |
| 資・通    | 通信・放送用         |
| 資・農    | 農業用            |
| 資・建    | 建設用            |
| 資・輸    | 輸送用            |
| 資・事    | 事務用            |
| 資・他    | その他の資本財        |
| 建設財    |                |
| 建・建    | 建築用            |
| 建・土    | 土木用            |
| 耐久消費財  |                |
| 耐・家    | 家事用(含、冷暖房機器)   |
| 耐・教    | 教養・娯楽用         |
| 耐・乗    | 乗用車・二輪車(含、自転車) |
| 耐・他    | その他の耐久消費財      |
| 非耐久消費財 |                |
| 非・被    | 被服及び履き物        |
| 非・食    | 食料用            |
| 非・他    | その他の非耐久消費財     |
| 生産財    |                |
| 生・鉱    | 鉱工業用生産財        |
| 生・他    | その他用生産財        |

## (2) 稼働率指数及び生産能力指数
