Subject of survey, etc.: This table shows the statistics of national tax delinquency such as carry-over of delinquency, newly accrued delinquency, procedures, etc. which were made in each fiscal year (April 1 to March 31).

Note: 1 The numbers of cases are counted independently by the period of tax payment. With respect to the case of additional tax, when its period of tax payment is the same as that for the original tax, the couple of the additional tax and the original tax is counted as one case. 2 Since the figures above indicate the situation for national tax delinquency, local consumption tax is not included. However, for the time being, because the national government is responsible for assessing and collecting national and local consumption taxes simultaneously based on the schedule 9-4 of the Local Tax Act, the situation for local consumption tax delinquency is indicated separately in the fiscal in the fiscal year column.
